

Car Park Decking, The Bishop's Avenue

NIFL Resin Flooring installs Car Park Waterproof Decking to New Development on 'Billionaire's Row' at The Bishop's Avenue in London.

The new development, which is set to become an exclusive apartment block, is directly opposite one of the most expensive houses in the world, according to Forbes Magazine, owned by Turkish Tycoon Halis Toprak.

NIFL Resin Flooring installed over 1,000m² of Epoxy Resin Car Park Coating, manufactured by Resdev, to the covered car park and over 2,000m² of Wall Coating in an installation which lasted several weeks.

Epoxy Resin Line markings and Line Spacings were incorporated to provide a complete flooring solution to the luxury London project.

NIFL Resin Flooring has recently installed numerous Epoxy Resin Car Park installations throughout the UK.
